ABOUT AUTUS

AUTUS ENVIRONMENT PROTECTION TECHNOLOGIES PRIVATE LIMITED

It's a **"Human Enterprise"** . Autus initiated its Entrepreneurship in the year 2013 as AUTUS INTERNATIONAL based at engineering & technology hub of India, Pune, Maharashtra. With the thought process of beginning with what it truly means to be a technology differentiator with a clear purpose of protecting the environment, serving society and creating & building a team which will lead us to the sustainable journey. We got accredited to ISO 9001 certification.

With a vision that goes beyond business, we took a leap and upgraded ourselves as AUTUS ENVIRONMENT PROTECTION TECHNOLOGIES PRIVATE LIMITED. With technological differentiation, we offer the most comprehensive range of products & services, to deliver performance sustainably in global industries.

With our continuous initiatives and efforts, we're developing methods and technological processes using ever-less-invasive methods to minimize environmental footprints while maximizing positive influence on the communities in which we live and work.

As a part of a sustainable community initiative aligned with our vision to serve the society and to meet global standards, we offer technological products of safe community drinking water and oxygen generator plants.

Currently, our domestic market reach is been through B2B customers across India and with similar business module, we outreached customers in North America, Europe, Middle East, Asia. In our expansion plan, we intend to reach uncharted territories across the globe.

Our operations are aligned through two business verticals – Water Process & Clean Air Chemistry.

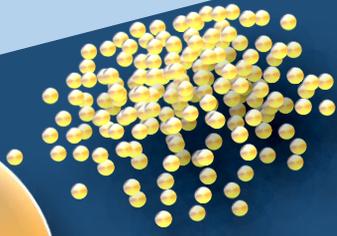

Exporting to
10+ Countries

Qualified Team of
30+

No. of Customers
500+

- Softener & Demineralized Resins
- Catalyst Resins
- Chromatography Resins
- Adsorbent Resins

.....& Resins for many more Water & Non-Water Applications

RANGE OF ION EXCHANGE RESINS

- Standard Resins (0.3 to 1.2 mm)
- Custom-made Resins (As required)
- Uniform Particle Size Resins (0.55 to 0.65 mm)

RANGE OF FILTER MEDIA PRODUCTS

Media Products for Water Purification

- Iron Removal Media
- Fluoride Removal Media
- Arsenic Removal Media
- Nitrate Removal Media
- Chromium Removal Media
- Sand Replacement Media

Media Products for Air Purification

- Zeolites
- Spherical Super Carbon
- Super Carbon Fabrics

CUTTING EDGE PRODUCTS FOR WIRE EDM INDUSTRY

Autus Environment Protection Technologies Private Limited

WATER & AIR PURIFICATION EXPERTS

OUR OFFERINGS

Range of Premium Deionising Product

EDMAX[®]

G

For
D2 Type
metallurgy

EDMAX[®]

M

For
Molybdenum
metallurgy

EDMAX[®]

C

For
Carbide
metallurgy

Range of Premium Wire EDM Filters

EDMAX

FX 80

Makino / Mitsubishi / Seibu

EDMAX

FX 80 / FO-72

Mitsubishi

EDMAX

FX 84

Fanuc / Japax
Sodick / Charmilles

EDMAX

Super 170FL

Mitsubishi / Makino/
Hitachi / Seibu

EDMAX

Super 170FL -1

Fanuc

Why EDMAX ?

India's No 1 Manufacturer of Deionisation Product for Water Purification in Wire EDM Machines

Preferred Vendor for World's Biggest Wire EDM Machine Manufacturer's & OEMs

EDMAX products are treated further to remove heavy metals and heavy organics which are major impurities in final products

Less than 2% broken pieces compared to 10% of standards followed by others

APPLICATION

OUR PACKING

- 5 Lit. Vacuum Pack Bag (20 lit Box)

- Minimum 5 lit. pack size designed specifically & made as per end user's requirement and convenience.
- The Carton Box are designed specifically for palletization to accommodate maximum qty of 960 lits. per pallet, which is highest amongst competition

Our Certifications

**KOREA
REACH**

An ISO 9001:2015 Certified Company

Our Memberships...

Confederation of Indian Industry

Indo German
Chamber of Commerce

MCCIA

Vision

To be a leading sustainable technological Solutions Company that goes beyond business and serving customers based on innovative, science-led differentiated products and solutions.

Mission

Serving Society through Innovations, Science and Environment protection.
